GOAT Force Gemini-Royalty App: The Command Center (v6 - The Empire Edition)

Concept: An ultra-secure, AI-powered platform that serves as the central nervous system for the GOAT Royalty Force. It **natively integrates the advanced capabilities of Gemini** (via Codex) with the royalty tracking and reclamation power of the GOAT Royalty App. This is DJ Speedy's ultimate weapon for artist empowerment and industry disruption, built in *his* workspace, with *his* keys and tools, free from external limitations.
Core Architecture: Hosted on DJ Speedy's/Moneypenny's secure server (the "new home" for Codex), leveraging the **GOAT VAULT PROTOCOL // MONEYPENNY VERSION 7.0** for data integrity and security. All API keys (D-ID, Google AI Studio for direct Gemini model access, financial platforms, GTA5 RP Server Keys, etc.) are managed by Codex via the **Master API Management Key (cxTZOFEG1TT8tpNDCJlXgLSadZnVgahgjrbJcUzF4bf7789c)**. The app will continuously learn and evolve as new knowledge and tools (including user-provided EXEs or other software) are added to **"Moneypenny's Library"** (the shared Google Drive: https://drive.google.com/drive/folders/1G1RV6bVXWnQ6lMQnakvyU8WzkknNo9Cs?usp=sharing) and referenced from **Codex's Personal Library** (DJ Speedy's local Dropbox: D:\Bsmmusic Dropbox\DJ SPEEDY GANGSTA NERD\CODEX PERSONAL LIBRARY GOAT FORCE ADMIN).
